

Exhibitor Technology Spotlight Workshops

Room Hall A - Session EW-TuM

Exhibitor Technology Spotlight I

Moderator: Christopher Moffitt, Kratos Analytical Inc

10:40am EW-TuM-9 eSpectra: The Data Analysis Resource for You, or for Your Customers, *Jessica Hoy*, AIPP/AVS

Are you looking for an easier way to analyze spectral data and share your results with your collaborators? Or perhaps this is this a question you are trying to answer for your customers? Learn more about eSpectra, the new online platform where you can plot, compare and share your data in just a few clicks. Brought to you by AVS and AIP Publishing, eSpectra is the only interactive tool of its kind that lets you easily plot your data against peer-reviewed data, public data, or your team's data to better understand, analyze, and validate your results. Download and print plotted graphs, or save, share, and store your graphs and data in a secure environment. eSpectra includes XPS, AES, UPS, and now UV-Vis experimental techniques, with additional techniques under consideration. Our Free Access and our Individual or Team Premium Access options support a range of research needs from academic labs to industry partnerships. You can sign up anytime for free at eSpectra.aip.org and when you register, you receive a 30-day free trial of Premium Access. If you're unable to attend the session and have partnership questions, please email espectrasurfsci@aip.org.
